

# CITY OF DETROIT FISCAL 2002/03 BUDGET

## AGENCY 42 SEWERAGE

### MISSION

The mission of the Water & Sewerage Department is to exceed our customers' expectations through the innovative treatment and transmission of water and wastewater and the provision of services that promote healthy communities and economic growth.

### DESCRIPTION

The Sewerage Disposal System is administratively part of DWSD, but maintained as a separate Fund in the City of Detroit Accounting System. DWSD operates one wastewater treatment plant which is located at 9300 W. Jefferson. This facility serves approximately 2.9 million people in Detroit and seventy-seven other communities in southeastern Michigan. DWSD's sewer system originated in 1836, and today consists of 14 pump stations, three storm water detention basins and a total of 3,000 miles of sewer lines that carry rainwater and wastewater to the Wastewater Treatment Plant – the largest single-site wastewater treatment facility in the country.

The plant has the capacity to treat sanitary sewerage of a maximum flow of 859 million gallons per day (mgd) and a capacity to treat up to 1,520 mgd of a combination of sanitary and storm flow while consistently meeting or exceeding permit requirements for effluent quality. The plant also produces approximately 1,000,000 wet tons of wastewater residuals each year which are either incinerated in compliance with applicable air pollution control laws or transported to commercially operated landfills in western Wayne and Macomb Counties.

### GOALS

1. To implement the policies of the Board, Charter requirements and Federal mandates for supplying water and sewerage services.
2. To provide an adequate level of trained personnel to operate the water and sewerage systems.
3. To inform the public of agency operations, especially with regard to sewerage operations.
4. To obtain timely approvals of grant amendments and/or loan applications from State and Federal agencies.
